Final Presentation Guidelines (PPT)

Time: 16 minutes per student

Format: PowerPoint or PDF slides

Presentation Order: To be announced in class.

• Students who are **not scheduled to present live** will **submit a recorded presentation**.

PPT Submission Deadline: May 9th, the end of the day.

Suggested Slide Structure

1. Motivation & Importance (3min)

- o Briefly introduce the problem and why it is important.
- o Provide real-world or research context.

2. Related Work (2min)

- o Summarize what has already been done in this area.
- o Point out limitations in existing methods or models.

3. Your Contribution (2min)

- o Clearly state how your approach is different or better.
- o Emphasize novelty or practical relevance.

4. Methodology (3min)

- o Explain your method or model concisely.
- o Include visual aids if applicable (e.g., diagrams, equations, flowcharts).

5. Results (5min)

- o Show key findings with charts or visuals.
- o Highlight what the results tell us.

6. Conclusion & Future Work (1min)

- o Wrap up with takeaways.
- o Mention any limitations and propose directions for future work.

Final Project Presentation Evaluation Rubric (Total: 5 Points)

Category	Points	Description
1. Problem Motivation	1 pt	• Is the importance of the problem clearly explained?
& Background		Are related works and current limitations briefly
		covered?
2. Contribution &	1 pts	• Is the student's contribution clearly articulated?
Innovation		• Is it original, useful, or insightful compared to
		existing approaches?
3. Methodology	1 pt	• Is the method presented clearly and logically?
Explanation		Are visual aids (e.g., figures or diagrams) used
		effectively?
4. Results &	1 pt	Are the results clearly presented and interpreted?
Interpretation		• Is there a discussion of what the results mean?
5. Communication &	1 pt	• Is the presentation clear, organized, and within time?
Delivery		• Is the speaker engaging and confident (live or in
		recording)?
